

TECHNICAL DATASHEET (244/2009/EC)

Modeltype: LED Plastic+Al A60 220-240V 9W 800lm E27

Technical data:

Brandname:	TEDi
Energy efficiency category:	A+
Weighted energy consumption (kWh/h):	9W
Nominal luminous flux (lm):	806lm±10%
Nominal life time (h):	15000h
Number of switching cycles:	50000
Colour temperature (k):	3000K
Warm-up time up to 60% of the full light output (s):	<1s
Light flux control (dimnable):	no
Is the lampe optimized to use for non-standard conditions?	no
Lamp dimensions (length and diameter (mm)):	60*113mm
Equivalence with an incandescent lamp (W):	60W
If the lamp is called 'energy saving lamp' does it complies the efficacy requirements?	yes
If contains, lamp mercury content (mg):	0
Website to consult in case of accidental lamp breakage:	TEDi.com (guideline for lamps)
Rated wattage (W):	9W
Rated luminous flux (lm):	806lm±10%
Rated lamp life time (h):	15000h
Lamp power factor:	>0.4
Lumen maintenance factor at the end of the nominal life (%):	>0.8 at 6000h
Starting time (Time up to optimal operation (s)):	<0.5s
Colour rendering (Ra):	>80
Instructions on how to clean up the lamp debris in case of accidental lamp breakage:	see guideline (TEDi.com)
Recommendations on how to dispose of the lamp at its end of life:	see guideline (TEDi.com)
